

E-Literacy Survey

Name: \_\_\_\_\_

The ESL Pathways Program involves computer use and basic computer skills. If you are not already 'e-literate', you will likely become more e-literate as you progress through your course.

It would be helpful for your instructor to know your comfort level with using the computer (laptop,ipad, smart phone included). If you feel you need help in a particular e-skill area, your teacher may recommend you visit the Learning Centre.

Skill	Very Comfortable	Somewhat Comfortable	Not at all Comfortable
Typing (Word Processing)			
Sending Emails			
Adding a Document Attachment to an Email			
Creating and Adding an Audio Attachment to an Email			
Creating and Adding a Video Attachment to an Email			
Adding a Video Link in an Email, for example, uploading a youtube video link.			

Do you have other digital technology skills? Please explain:
